

# **California Native Plant Society**

*Riverside-San Bernardino Chapter*

*Meeting Program:*

## ***Eradicating and Controlling Wildland Weeds*** ***Bill Neill***

*When considering loss of rare and endangered native flora, wildland weeds are ranked second only to outright habitat destruction. The presentation will focus on the fight against Tamarisk, Castor Bean, Ailanthus (Tree of Heaven), Spanish Broom, and Arundo (Giant Reed), plus how chemo-phobia over herbicide use has hampered invasive weed control on local and regional scales. Bill Neill serves as the CNPS Chapter Invasive Exotics chair for several CNPS chapters, is a charter member of the California Invasive Plant Council, and has been eradicating and controlling many of the worst wildland weeds for decades.*

**Thursday, April 15, 2010**

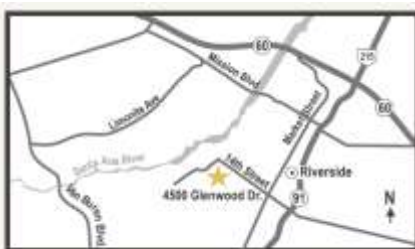

**7 p.m.**

*Riverside-Corona Resource Conservation District,  
Building F Conference Room  
4500 Glenwood Drive, Riverside*

**FREE PARKING**
